Raymond Beazley 2012-04-01 Finally available, a high quality book of the original classic edition of Prince Henry the Navigator the Hero of Portugal and of Modern Discovery 1394-1460 A.D.. It was previously published by other bona fide publishers, and is now, after many years, back in print. This is a new and freshly published edition of this culturally important work by C. Raymond Beazley, which is now, at last, again available to you. Enjoy this classic work today. These selected paragraphs distill the contents and give you a quick look inside Prince Henry the Navigator the Hero of Portugal and of Modern Discovery 1394-1460 A.D.: That is, as explained in Chapter I., it has been attempted to treat Exploration as one continuous thread in the story of Christian Europe from the time of the conversion of the Empire; and to treat the life of Prince Henry as the turning-point, the central epoch in a development of many centuries: this life, accordingly, has
been linked as closely as possible with what went before and prepared for it; one third of the text, at least, has been occupied with the history of the preparation of the earlier time, and the difference between our account of the eleventh-and fifteenth-century Discovery, for instance, will be found to be chiefly one of less and greater detail. ...(Early Christian Pilgrims): (1) Itinera et Descriptiones Terr Sanct, vols. i. and ii., published by the Societé de l'Orient, Latin, Geneva, 1877 and 1885, which give the original texts of nearly all the Palestine Pilgrims' memoirs to the death of Bernard the Wise; (2) the Publications of the Palestine Pilgrims' Text Society; (3) Thomas Wright's Early Travels in Palestine (Bohn); (4) Avezac's Recueil pour Servir l'histoire de la géographie; (5) some recent German studies on the early pilgrim records, e.g., Gildemeister on Antoninus of Placentia.

...(Geographical Science): (1) Neckam's De Naturis Rerum; (2) the seven chief Mappe-Mondes of the fourteenth and early fifteenth centuries; (3) the leading Portolani; (4) scattered notices, e.g., from Guyot de Provins' 'Bible,' Brunetto Latini, Beccadelli of Palermo, collected in early chapters of Major's Henry the Navigator; (5) Wauwerman's Henri le Navigateur. ...Coimbra University, with which as rector or chancellor or patron Prince Henry was so closely connected, for which he once provided house room, and in which his benefactions earned him the title of 'Protector of the studies of Portugal' is given to illustrate his life as a student and a man of science; the mother church of the order of Christ at Thomar may remind us of another side of his life—as a military monk, grand master of an order of religious chivalry which at least professed to bind its members to a single life, and which under his lead took an active part in the exploration and settlement of the African coasts and the Atlantic islands. ...The first of these, who owed to Portuguese advance towards the south the suggestion of corresponding success in the west, and who found America by the western route to India, -as Henry had planned nearly a century before to round Africa and reach Malabar by the
eastern and southern way, -was the nearest of the Prince's successful imitators in time, the greatest in achievement; he was not a mere follower of the Portuguese initiative, for he struck out a new line or at least a neglected one, made the greatest of all geographical additions to human knowledge, and took the most daring plunge into the unknown that[Pg xxvi] has ever been taken-but Columbus, beside his independent position and interest, was certainly on one side a disciple of Henry the Navigator, and drew much of his inspiration from the impulse that the Prince had started.

Raymond Beazley 2010-03 Excerpt: ... thick woods they found there," or, in the form of Machico, from the first discoverer, luckless Robert Machin. For on landing the Portuguese, guided by Morales, soon found the wooden cross and grave of the Englishman and his mistress, and it was there that Zarco, with no human being to dispute his title, "took seizin" of the island in the name of King John, Prince Henry, and the Order of Christ. Embarking once more, he then coasted slowly round from the "River of the Flint" to "Jackdaw Point," and the "Chamber of the Wolves," where his men started a herd of sea-calves. So he came to the vast plain overgrown with fennel or "Funchal," where the chief town of after days grew up. A party sent inland to explore, reported that on every side the ocean could be seen from the hills; and Zarco, after taking in some specimens of the native wood and plants and birds at Funchal, put back in the last days of August to Portugal. He was splendidly received at Court, made a count.

Essay on the Life of Prince Henry the Navigator-Jos Braz Pereira Da Cruz 2013-11-17 The Prince Henry may be taken as a symbol of wishes and efforts of anonymous navigators, cartographers, of cosmographers, merchants and adventurers who helped modern man to build new dimensions to the perspective of the world. A prince of remarkable qualities that worked in favor of the Kingdom and of the Catholic religion, with projects, subject to successes and failures, stubborn in realizing their desires, and a man deeply marked by the conditions and conveniences of life of his time. It is to mention that the author was awarded with the prize Henriqueuo, in 1960, in Portugal.

The Golden Age of Prince Henry the Navigator (Classic Reprint)-J. P. Oliveira Martins 2015-07-06
Excerpt from The Golden Age of Prince Henry the Navigator The following work is an account of the lives, adventures, discoveries, dreams, and ultimate fates of that wonderful family of brothers, the Portuguese Grandsons of John of Gaunt - sons of John of Aviz, and Philippa of Lancaster. In its pages will be found living, moving pictures of grim old John of Aviz himself, as well as of his sons, Duarte the Eloquent, Peter the Traveller, Henry the Navigator, John the Unfortunate, Fernando the Martyr, and last, but not least, Barcellos "le batard," head of the future Royal House of Braganza. The glimpses it gives of the colour and movement of the fifteenth century, when Moslem and Christian fought fiercely for dominance in Europe, when grim mediaeval barbarism, cruelty and lust, mixed and mingled with the pomp and circumstance of knightly chivalry, with childlike Christian piety and budding transcendentalism, makes it read more like a cunningly devised historical romance than sober history. Yet all the facts presented have been carefully verified; and often the very words of the original documents have been interwoven in the text: for the aim of the author has been to attempt, as it were, a resurrection, striving to make his readers see events, not with their own sophisticated modern eyes, but as they appeared to the men and women of the time in which they were happening. In the Iberian peninsula the work is now a classic. It has been drawn upon freely by foreign writers in the compilation of histories of discovery and colonisation. But up to the present it has never before been presented to the English public. About the Publisher Forgotten Books
European Voyages of Exploration: Prince Henry the Navigator: The Lure of Trade- The Applied History Research Group at the University of Calgary presents "Prince Henry the Navigator: The Lure of Trade" from the tutorial "The European Voyages of Exploration: The Fifteenth and Sixteenth Centuries." The tutorial explains the reasons that Portuguese Prince Henry the Navigator (1394-1460) wanted to explore Africa. Henry wanted to exploit the natural resources and raw materials of Africa for profit.

Not illustrated. 1911 edition. Excerpt: ...enemies really were. Fourthly, in all his fighting with the Moors he had never found a Christian prince to help him from that side (of further Africa) for the love of Christ, therefore he wished, if he could, to meet with such. Last was his great desire for the spread of the Christian Faith and for the redemption of the vast tribes of men lying under the wrath of God.

Behind all these reasons Azurara also believed in a sixth and deeper one, which he proceeds to state with all gravity, as the ultimate and celestial cause of the Prince's work. " For as his ascendant was Aries, that is in the House of Mars and the Exaltation of the Sun, and as the said Mars is in Aquarius, which is the House of Saturn, it was clear that my lord should be a great conqueror, and a searcher
out of things hidden from other men, according to the craft of Saturn, in whose House he was." The attempts of Henry and his family to conquer a land-empire in northern Africa are not to be separated from the maritime and coasting explorations. They were two aspects of one idea, two faces of the same enterprise. In the same way the new bishopric of Ceuta, now founded, was a first step towards the organised conversion of the Heathen of the South. The Franciscans had founded the See of Fez and Morocco in 1233, but it had not till now been followed up. T, HATEVER the Prince owed to his stay 1 at Ceuta beyond the general suggestion and encouragement to take up a life-profession of discovery, it was at any rate put into practice on his second Court life of Lisbon, though he soon gathered round himself a rival Court, of science and seamanship. The old " Sacred Cape " of the Romans, then called Sagres, now the " Cape St.Vincent " of Nelson...
